

## Accessories

Long Screw x 4	Thread Size: 5mm, Length: 33mm (Fixed to the ground)
Short Screw x 10	Thread Size: 4mm, Length: 6mm (Fixed to the battery)
Metal Fixing Plate x 2	99 x 83mm / 3.90 x 3.27 inch

### Notes:

- The included metal fixing plates and screws are used to secure your LiFePO<sub>4</sub> battery to your RV, camper, motorhome, etc.. Please use a screwdriver or electric drill to install the plates to the bottom of the LiFePO<sub>4</sub> battery before use.
- When installing, make sure the flat surface of the screw hole is attached to the battery and the concave surface faces the ground. Otherwise, the screws will bulge.
