

HEATED SOCKS

Model: DHS-1BK01

INSTRUCTIONS

- Step 1. Please fully charge the battery before the first use.
- Step 2. Take out both socks and put them on (do not wear them inside out). We advise you to place the battery in the small pocket attached to the socks.
- Step 3. Take out power cords from the socks and plug them into the socket on the battery.
- Step 4. Press and hold the power button for 3s to turn on. The indicators light up and now you can short press the power button to choose desired settings among High / Medium / Low. To shut off the heated socks, press and hold the power button for 3s.

SPECIFICATIONS

Battery	2200mAh, 18650 Li-ion battery
Voltage	5V/0.61A (input), 3.7V/2A (output)
Current	460mAh
Charging time	Approx. 4.5 hours
Heating levels	High (136.4°F), Medium (122°F), and Low (114.8°F)
Battery life	High (5-7 hours), Medium (8-10 hours), and Low (12-15 hours) Please note that the actual battery life varies to the ambient temperature and the actual load.
Auto-heating mode	Press and hold the power button for 3s to turn on the socks and they will enter the AUTO mode instantly. In AUTO Mode, the temperature of your socks will regulate from High to Medium after 5 minutes. Then, the socks stay at Medium in the AUTO mode. To choose a desired heating level, please short press the power button.

CARE

1. Please unplug the socks before washing them. Tuck the power cord away in the small pocket attached to the socks.
2. The wash temperature should not exceed 122°F. To maintain the quality and expand the service life of the socks, hand washing is highly recommended. Alternatively, you can put the socks into a laundry net before machine washing.
3. Using the spin process of your washing machine to remove the moisture of socks is not recommended. DO NOT tumble dry or dry the socks at high heat. DO NOT iron the socks.

BATTERY MAINTENANCE

1. Keep the battery away from fire, high temperature, or water. DO NOT drop or dismantle the battery.
2. Please fully charge the battery before storage. To preserve the lifespan of the battery, please charge it every 60 days.
3. Store the battery in a cool, dry place.

WARRANTY

- Dr.Prepare products are covered by a 12-month limited warranty from the original purchase date. If any problems occur, please contact our support team.
- We only provide after-sales services for products that are sold by Dr.Prepare or retailers and distributors authorized by Dr.Prepare. If you have purchased your unit from other channels, please contact your seller for more information about return and warranty.
