ESSENTIAL OIL DIFFUSER

Model: DP-0AH02

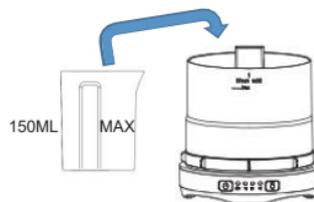

➤ **Manual**

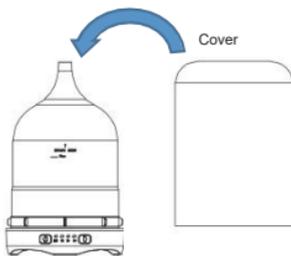

OPERATION INSTRUCTION

1. Connect the adapter (DC 24V / 0.5A) with your diffuser.

2. Fill the water reservoir to the fill line with the measuring cup. Then add 2-3 drops of essential oils into the water.

3. Place the lid back on and slide the metal cover on by aligning the hole at the top of the cover with the spout.

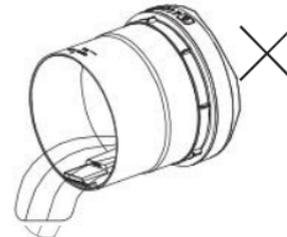

4. Long press the POWER button to turn on the diffuser. Short press the LIGHT button to turn on the LED ambient light.

POURING OUT WATER

Please pour water on the opposite side of the mist outlet.

Do not let water enter the mist outlet, which will get the outlet blocked.

OPERATION

1. Connect the adapter (DC 24V / 0.5A) with your diffuser.
2. Remove the lid to fill water (around 200-250ml) and essential oils.
3. Fill the water reservoir to the fill line with the measuring cup. Then add 2-3 drops of your favorite essential oils directly into the water.
4. Place the lid back on and slide the metal cover on by aligning the hole at the top of the cover with the spout.
5. Start the diffuser by long pressing the POWER button after plugging in your diffuser. Then short press the POWER button again to choose among 4 timers: AUTO / 1hr / 3hrs / 5hrs.

6. Press the LIGHT button to turn on LED light and short press the LIGHT button to choose a single color. You can also long press the LIGHT button to let the light change among 7 colors automatically.

7. The diffuser can operate for approx. 6-10 hours. It will automatically switch off when the reservoir is empty.

IMPORTANT SAFETY INSTRUCTIONS

1. Please use the included DC 24V adapter ONLY to power up your diffuser.

2. Do not run the diffuser when the water reservoir is empty.

3. Use a cotton swab to clean the spout of the lid regularly after 3-5 uses.

4. Do not add essential oils to the water reservoir through the mist outlet. This may get the mist outlet blocked.

5. Pour water from the opposite side of the mist outlet. The buttons may get damaged if water goes into the mist outlet.

6. Make sure the temperature of water is below 140°F / 60°C.

7. The diffuser is not splash-proof. Keep the bottom dry and store the diffuser in a dry and cool place.

8. Keep the diffuser away from high temperatures (over 104°F / 40°C), magnetic fields, and dust to prevent potential risks. Do not place the diffuser on the carpet.

SPECIFICATIONS

Net Weight: 1.3 lb

Dimension: 4.6 x 4.6 x 7.7 in

Input: DC 24V, 0.5A

DC Plug: Dia Ø 5.5 x 2.1 mm

Frequency: 2.4mhz+0.1

Operation Temperature: 32°F-104°F

Reservoir Capacity: 250 ml

Operation Time: 6-10 hours

Mist Capacity: 45 ml / h

FAQ

Q: What's the capacity of the water reservoir?

A: The capacity is 250ml. Please fill the water reservoir to the fill line.

Q: Why does the mist not come out, even if the indicator lights up?

A: Too much water is added, leaving the mist outlet blocked.

Q: Sometimes the mist works sometimes it doesn't, what happen?

A: Excessive essential oils will cause bubbles and block the mist outlet. Make sure water is below the fill line as well.

Q: Why do bubbles appear and leak from the water tank?

A: Excessive essential oils will cause bubbles. Thus, we advise you to add 2-3 drops per use.

Q: Why does my diffuser stop emitting mist after a couple of months, although the indicator is on?

A: The mist outlet is blocked. Use a cotton swab to clean the mist outlet in the water tank regularly.

NOTE

1. Please read through the operating instructions carefully before you use the diffuser for the first time and keep them safely for later reference;

2. The appliance is only to be used in the home for the purposes described in these instructions. Unauthorised use and technical modifications to the appliance can lead to danger to life and health.

3. This diffuser can be used by people aged 18 years and above.
