MAINTENANCE

1. Please clean the lamp regularly to ensure performance of the projector. Make sure the power is cut off before maintenance.
2. To avoid any damages to the projector, please do not use chemical cleaning solvent for routine maintenance.

ASSEMBLY INSTRUCTIONS

1. Attach the bracket to the projector with two screws (see fig. 1).
2. Use the hex nut and knob to fasten the bracket under the projector and the stake (see fig. 1).
3. Connect the 2-pin power cord with the included power adapter. Fasten two parts to ensure secure connection.
